CLIENT PLATFORMS

Freelancer

Upwork

Profile

Completed +2 and currently pursuing a bachelor's degree, building skills toward becoming a full stack developer with HTML, CSS, JavaScript, Python, and C. Goal-driven and hands-on, with a focus on shipping complete, working applications rather than isolated exercises.

AREAS OF FOCUS

Front-End Development

Modern, mobile-ready websites built to reach and convert.

Back-End Development

UI/UX centered on the user; backend focused on the data.

WordPress Development

Building and improving business websites on WordPress.

WordPress Security

Code review and vulnerability scanning for client sites.

FEATURED PROJECT

Interactive To-Do Task Manager

A fully functional, interactive task manager built with JavaScript.
